ELEVATOR WORLD
November 2018 Vol. LXVI No. 11

COVER STORY

82 Harmonized Elevator Dispatching and Passenger Interfaces

by Rick Barker

Improvements in traffic performance and user interfaces are shown in a case study on PNB 118, a 118-story building under construction in Kuala Lumpur.

FEATURES

68 Delaware Elevator and the NAEC Education Committee Meeting

by Ricia Sturgeon-Hendrick

Your author tours Delaware Elevator, visits a restored distillery and gets to know Salisbury, Maryland.

110 Amos Rex: Futuristically Embracing the Past

by Lee Freeland

New, carefully applied technology blends with the 1930s aesthetics of a Helsinki heritage building.

124 1,000-Year Legacy

by Darren Papani

Accessibility lifts are designed to be unobtrusive in historic cathedral that served as a backdrop in *Harry Potter* movies.

FOCUS ON SAFETY

92 Door Safety Function for Elevators Using Video Analysis

by Shuhei Noda, Kentaro Yokoi, Hiroshi Sukegawa, Teh KoK Long and Sayumi Kimura

96 Functional Safety and STO in Elevator Drives

by Dalen Miller

98 The Danger of Competitive Pressure

by Rick Hesketh

100 Safety in 2028: Predicting the Safety Level of Future Standards

by Tijmen Molema

104 Raising the Bar

by Kaija Wilkinson

106 A Synthesis of Technology and Culture

by Tony Black
